

Bosch C355 Best for Coatings and Composites

Brand : Bosch

Product code: 2 608 607 776

Product name : C355 Best for Coatings and Composites

C355 Best for Coatings and Composites

Bosch C355 Best for Coatings and Composites:

The C355 Best for Coatings and Composites produces an excellent finish on coating and composite surfaces. It features an anti-static structure promoting low dust adhesion on the workpiece for smooth finishes. Furthermore, a controlled silicon carbide abrasive grain distribution removes material with precision for sleek finishes with high surface quality. It is intended for keying and sanding down such hard materials as stone, mineral-based materials, composites, varnishes and paint. It is also ideal for sanding between coats of varnishes on surfaces and roundings as well as precision work on ferrous and non-ferrous materials. The C355 Best for Coatings and Composites sanding roll is tearable to any desired size and is usable for hand-sanding blocks. It features an electrostatically closed grain distribution and fully synthetic resin bonding on C-paper for optimal sanding behaviour.

Technical details		Technical details	
Proper use *	Sanding	Roll length	5 m
Sanding surfaces *	Stone, Paint	Product type *	Roll
Brand compatibility *	Bosch	Product colour	Black
Grit	400	Packaging data	
Roll width	9.3 cm	Quantity per pack *	1 pc(s)
