

WATER KETTLE

smart and precise in temperature
Super-fast from 0 to 100

ROMMELSBACHER

The WK 3000 is a high-quality water kettle of the ROMMELSBACHER *Sunny* breakfast series. With its timeless linear design, it fulfils versatile tasks in every kitchen. Boiling water for brewing tea, hot water for instant dishes or warm water for baby food - everything is provided quickly and at the right temperature. This stylish appliance convinces in look, feel and functionality. Lots of power up to 3,000 watts bring the water to the desired temperature in seconds. The water level indicators on both sides provide a good overview. The extremely user-friendly operating concept of this water kettle is convincing in daily use: the 1-button control and an LED display are located directly on the handle. The quick-start function is very practical, providing boiling water quickly at the touch of a button. The temperature is precisely controlled electronically, and an automatic keep-warm function keeps the water at the desired level. The large filling opening, the removable stainless-steel filter and a closed inner bottom make cleaning easy. Safety is a top priority with the WK 3000; the heat-insulated handle, the automatic boil-stop function and a boil-dry protection give you a good feeling during daily use. This beautifully designed water kettle made by ROMMELSBACHER is the perfect combination of safety, functionality and style.

Breakfast series: water kettle,
filter coffee machine, toaster
