- ▶ pliers arranged clearly and well protected
- ▶ organisational system suitable for all common tool trolleys and workbenches
- ▶ a choice of three sets:
Basic, circlip pliers and water pump pliers

NEW

KNIPEX Quality – Made in Germany

Organised sets of pliers.

Clearly organised and ready to hand, the sets of pliers are accommodated in a protective tray made of sturdy foam.

The organisational system fits into all common tool trolleys and workbenches. The two-colour principle makes it easy to see where a tool is missing. With the foam trays KNIPEX offers a familiar and well-proven organisational system which makes the purchase of the sets of pliers even more attractive for a lot of users. A good opportunity to add to and update the ranges.

KNIPEX sets of pliers in a foam tray:

- two-colour, sturdy foam
- a well-proven protective and organisational system
- suitable for all common tool trolleys and workbenches
- accurately fitting recesses for holding KNIPEX pliers
- foam tray dimensions (L x W x H): 335 x 165 x 33 mm

Organisation is easy: three sets of pliers in a two-colour foam tray.
