

EAN:	4013288205902	Size:	0x0x0 mm
Part number:	05136091001	Weight:	0 g
Article number:	950/9 Christmas Hex-Plus HF 1	Country of origin:	CZ
		Customs tariff number:	82054000

- L-keys with retaining function for hexagon socket screws
- Hex-Plus allows socket head screws to live longer
- Extra-long arm
- High corrosion protection thanks to chrome-plating
- In an advertising-free, fun Christmas pack

The slightly different Christmas gift idea: High-quality set of L-keys for hexagon socket screws with high corrosion protection and extra-long leverage for high power transmission. The Hex Plus profile offers a larger contact surfaces area in the screw head. The notching effect is therefore reduced to a minimum, furthermore damage to of the screw head is almost eliminated. With holding function: The clamping of the screw is achieved by a flexible locking ball on the long arm. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

L-keys with retaining function for hexagon socket screws

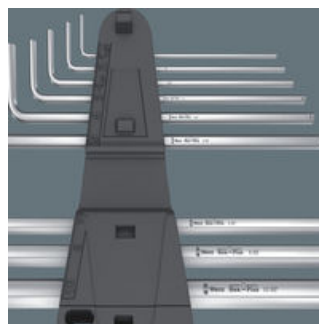

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to sec

Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Size markings

The size of each L-keys has been engraved by a laser making it easy to find the right tool.

High corrosion protection thanks to chrome-plating

Chrome-plated hexagon L-keys for outstanding surface protection and long service life. High corrosion protection.
