

Pneumatic Connector 12 mm with mounting hole 90° angled

Description

This pneumatic connector by Delock is ideal for quick and secure connection of hoses in compressed air and pneumatic systems.

With mounting hole

The practical mounting hole allows the connector to be quickly and securely attached to machines, brackets or other mounting points. This ensures a stable connection and prevents the cables from slipping or coming loose.

90° angled design

The 90° thread allows for compact hose routing in confined spaces, prevents kinks and ensures an even flow. Perfect for machines, workshops or automation systems where space must be used optimally.

Item no. 60748

EAN: 4043619607488

Country of origin: China

Package: Zip poly bag

Special features

- Suitable for air and pneumatic lines
- High tightness and durable connection
- Quick installation without tools
- Integrated mounting hole
- Space-saving 90° design

Technical details

- Design: 90° angled coupling
- Hose connection: 12 mm (both sides)
- With mounting hole
- Mounting hole diameter: ca. 3.2 mm
- Operating temperature: -10 °C ~ 60 °C
- Operating pressure: up to ca. 10 bar (depending on the system)
- Material: robust plastic with metal clamping ring
- Colour: black
- Dimensions (LxWxH): ca. 39.5 x 29.0 x 21.0 mm

Package content

- Pneumatic connector

General

Style:	angled 90° both sides identical
--------	------------------------------------

Interface

Connector:	12 mm
------------	-------

Technical characteristics

Operating temperature:	-10 °C ~ 60 °C
------------------------	----------------

Physical characteristics

Length:	39.5 mm
Width:	29.0 mm
Height:	21.0 mm
