

RJ45 Cable plug to plug with switch Cat.6 F/UTP 1 m - network switching black

Description

This RJ45 network cable by Delock with integrated switch allows for targeted interruption of the network connection. This makes the cable ideal for applications where devices need to be quickly disconnected or reconnected to the network without the need for time-consuming reconnecting.

Directly on the cable – intelligent switching solution at the touch of a button

The switch is located directly on the cable and disconnects the active connection with a simple click – ideal for IT environments, security applications or energy saving operation of network devices.
