

Delock DisplayPort 1.2 cable 4K 60 Hz 5 m without latch

Description

This DisplayPort cable by Delock can be used to connect devices with DisplayPort interface, e.g. displays, projectors or TVs, to a PC or laptop. The triple shielded cable supports a resolution of up to Ultra HD (4K @ 60 Hz) and is downwards compatible to Full-HD 1080p.

Slim plug

Thanks to the missing latch, the plugs are a bit slimmer than standard DisplayPort plugs, so several ports can be used simultaneously. In addition, the plugs can be removed more easily from hard-to-reach DisplayPort ports, e.g. on the rear side of a monitor.
