

Delock Keystone Module mini DisplayPort female 110° > mini DisplayPort male with cable white

Description

This module by Delock can be used to extend e.g. a mini DisplayPort cable. With its standardised dimensions it can be used for easy snap-in mounting in e.g. a Keystone patch panel, face plate or surface-mount box. The short, angled cable has a small mounting depth and allows a space-saving installation in hard to reach places in equipment or in cable ducts.

50 cm
