

InLine® HDMI Station, High Speed HDMI Cable with Ethernet, M/F, black, golden contacts, 3m

17533S

HDMI extension cable with integrated stand for comfortable operation of HDMI Streaming Sticks as Fire TV Stick, Chromecast stick or similar stick with HDMI connector. If space behind the TV, between TV and wall is limited, it is comfortable to use a HDMI Streaming Stick in a better position, this extension can help. Place the HDMI stand just at a convenient accessible place. The stick can thus be easily replaced when several streaming sticks

are in use and not enough HDMI ports are free on your TV.

- HDMI extension with stand
- HDMI High Speed with Ethernet compatible
- Connectors: HDMI Type A connector in the base to HDMI Type A male, 19-pin
- Supports all resolutions up to 4K2K, UHD, 2160p @50/60Hz
- Signals and technologies like 3D, ARC, HFR, CEC are supported
- Gold-plated contacts and full copper wires for best signal transmission
- Shielded cable, colour black
- Magentic stand, with tape or velcro pad for fixing, included
