Marke: INL

Bestell-Nr.: 40152

InLine® Smart Home door/window sensor is a contact signal transmitter that can be integrated into your InLine WiFi Smart Home network. This sensor is a signal element that reacts to the contact magnet and, integrated into the InLine WiFi Smart Home System, triggers scenarios or automatisms that are optionally set. By using the Smart life App you have the possibility to integrate this product in several automatisms/scenarios.

- Color: White
- Material: ABS+PC plastic
- Power consumption: 115-120mA
- Standby: 13µA
- Signal: WiFi 2.4GHz
- Protocol: IEEE802.11b/g/n
- Range: Up to 45m (in visual contact)
- Operating temperature: 0°-40°C
- Operating humidity: 20%-85%
- Storage temperature: 0°-60°C
- Storage humidity: 0%-90%
- Weight: 100g
- Dimensions (LxWxH): Transmitter 71x21x22mm
- Dimensions (LxWxH): Magnet 40x11x11mm
- Battery: 1x CR2
- Lifetime appr.: 3000x
- App: Smart Life

- Compatible with: Amazon Alexa, Google Assistant and IFTTT
