

Gaming Series

Xilence LiQuRizer LQ360G.ARGB | LQ360G.W.ARGB

High performance and elegance with the brand new all-in-one water coolers from Xilence. These advanced coolers combine impressive performance, quality, flexible hoses, and metallic design for the ultimate PC gaming experience.

Powerful and efficient:

With impressive TDP, these AiOs can effortlessly and efficiently cool even the most demanding CPUs. Stable and reliable cooling that delivers high performance even under extreme conditions.

Elegant design and premium materials:

The design of Xilence water coolers captivates with its elegance and the Infinity Mirror. The long, flexible, and sturdy hoses allow for easy installation and adapt flexibly to individual requirements. The ARGB and PWM 120mm fans are pre-installed, and the fan cables have been combined, requiring only one cable to be connected for both fans and pump. The high-gloss finish gives the system a sophisticated aesthetic.

Radiant lighting:

Immerse the system in a fascinating play of light. Xilence water coolers are equipped with powerful LEDs that illuminate the case with a bright ambiance. The lighting is not only impactful but also customizable to accentuate personal style.

Infinity Mirror with LED technology:

The LED technology creates a captivating infinite mirror effect that gives the system a futuristic and unique touch. The pulsating light of the Infinity Mirror expertly showcases the PC.

Product Features

- Sleek black and white design in metallic Infinity Mirror look
- Multi-socket brackets for AMD and INTEL
- Quick Mounting System
- Flexible hoses for versatile installation
- Only 1 cable for PWM/ARGB with pre-installed fans
- Large copper heat spreader and high-performance radiator
- Illuminated ARGB pump head with 3 PIN connector
- XILENCE ARGB PWM fans

Technical Data

Sockets	AM5/AM4 LGA1851/1700/1151/1150/1155/1156/1200
CPU max. Watt	350W
RADIATOR	
Size radiator	397 x 120 x 27mm
Size waterblock	72 x 72 x 54mm
Tube length	450mm
Material radiator	Aluminium
Material cold plate	Copper
PUMP	
Speed	2400 ± 10% RPM
Noise Level	<28 db (A)
Current Input	0.3 A
Bearing Type	Ceramic Bearing
FAN	
Fan Size	120 x 120 x 25mm
Fan Speed	900 - 1850 ± 10% RPM
Bearing Type	Hydraulic bearing
Air Flow	76 CFM
Fan Control	PWM
Noise Level	18 - 28 dB (A)
Max. static preassure	2.1mm H ₂ O
Thermal Paste	included
Current input	0.23 A
Fan-Plug	4PIN
ARGB-Plug	Female ARGB 3PIN (5V AURA)
Weight	1.67 kg

Logistical Data

Manufacturer Number	LQ360G.ARGB	LQ360G.W.ARGB
Item Number	XC997	XC998
EAN Barcode	4044953503924	4044953503948
