

## RJ45 Patchkabel S/FTP, Cat. 6A, violett

### Description

The shielded Cat.6A RJ45 patch cable ensures excellent performance for **10 Gigabit** Ethernet applications. The moulded grommet captivates with its **slim design** and thus simplifies the insertion process in cramped conditions.

Cross section 4 x 2 x AWG27/7

**Length imprint on boot**

Available in **8 colours**

### General data

|                                |                                                    |
|--------------------------------|----------------------------------------------------|
| Area of Application            | Structured cabling;Industrial Ethernet;Data center |
| Category                       | 6A (TIA)                                           |
| Type of connector connection 1 | RJ45 8(8)                                          |
| Type of connector connection 2 | RJ45 8(8)                                          |
| Connector type                 | RJ45 Standard green                                |
| Contacts                       | Gold plated                                        |
| Pin assignment                 | 1:1                                                |
| Allocation                     | acc. TIA/EIA 568B                                  |
| Type                           | Shielded                                           |
| Length imprint                 | Yes                                                |
| Anti-kink sleeve               | plugged in                                         |
| Colour anti-kink sleeve        | violet                                             |
| Locking lever                  | Yes                                                |
| UL approbated                  | No                                                 |

### Mechanical characteristics

|               |      |
|---------------|------|
| Mating cycles | 2000 |

## RJ45 Patchkabel S/FTP, Cat. 6A, violet

### Mechanical characteristics

|                                        |                         |
|----------------------------------------|-------------------------|
| Bending radius                         | >30 mm                  |
| Conductive shield                      | Selected shield contact |
| Suitable for degree of protection (IP) | IP20                    |

### Cable construction

|                    |        |
|--------------------|--------|
| Raw cable          | Cat.6A |
| Cable type         | S/FTP  |
| Total screening    | 80 %   |
| Cable construction | 4x2    |
| AWG-size           | 27/7   |
| Conductor Material | Copper |

### Cable sheath

|                             |                                                                                            |
|-----------------------------|--------------------------------------------------------------------------------------------|
| Silicone-free               | Yes                                                                                        |
| Jacket material             | LSZH                                                                                       |
| Colour outer sheath         | violet                                                                                     |
| Printing                    | Cat.6A PATCH S/FTP 4x2xAWG27/7 LSZH ISO/IEC11801 ANSI/TIA-568-C.2 ***10Gigabit Ethernet*** |
| Outer diameter of the cable | 6.0 mm                                                                                     |
| Flame-retardant             | Yes                                                                                        |
| Halogen-free                | Yes                                                                                        |
| Low smoke                   | Yes                                                                                        |

### Environmental conditions

|                   |             |
|-------------------|-------------|
| Temperature range | -20 – 60 °C |
|-------------------|-------------|

### Electrical characteristics

|                               |                                                                              |
|-------------------------------|------------------------------------------------------------------------------|
| NVP value                     | 74 %                                                                         |
| Impedance                     | 100 ±15 Ω                                                                    |
| Conductor resistance DC       | 185 Ω/km                                                                     |
| Loop resistance               | 370 Ω/km                                                                     |
| Resistance unbalance          | 3 %                                                                          |
| Insulation resistance         | 10 MΩ                                                                        |
| Contact resistance            | 30 mΩ                                                                        |
| Test voltage                  | 1000 V DC, 1min                                                              |
| POE class                     | PoE acc. to IEEE802.3af; PoE+ acc. to IEEE802.3at; 4PPoE acc. to IEEE802.3bt |
| Current capacity              | max. 1 A                                                                     |
| Operating-/ tempering voltage | max. 50 V DC                                                                 |
