GaN Chargers are smaller since they require much fewer components compared to silicon chargers.

They also work more efficiently at much higher voltages than silicon chargers.

**Smaller
& Faster**

Up to 65 W output for a variety of devices from tablets to smartphones; it powers your devices at incredible speeds.

Supports PPS (Programmable Power Supply) charging and adjusting the output power in real-time, depending on device's charging status, feeding it with maximum power.

Extremely safe as it comes with overcharge, overdischarge, overload and short circuit protections.

Compact size makes it lightweight and easily fits into your laptop bag or backpack. The perfect mobile accessory for traveling.

Universal Compatibility

Suited for a wide variety of USB-C devices, and equipped with international voltage compatibility.
