

HP PC Box

Item no.: 8901

modular display mount for HAGOR stand systems and ceiling mounts

The HP PC Box allows the inclusion of a content player or a mini PC.

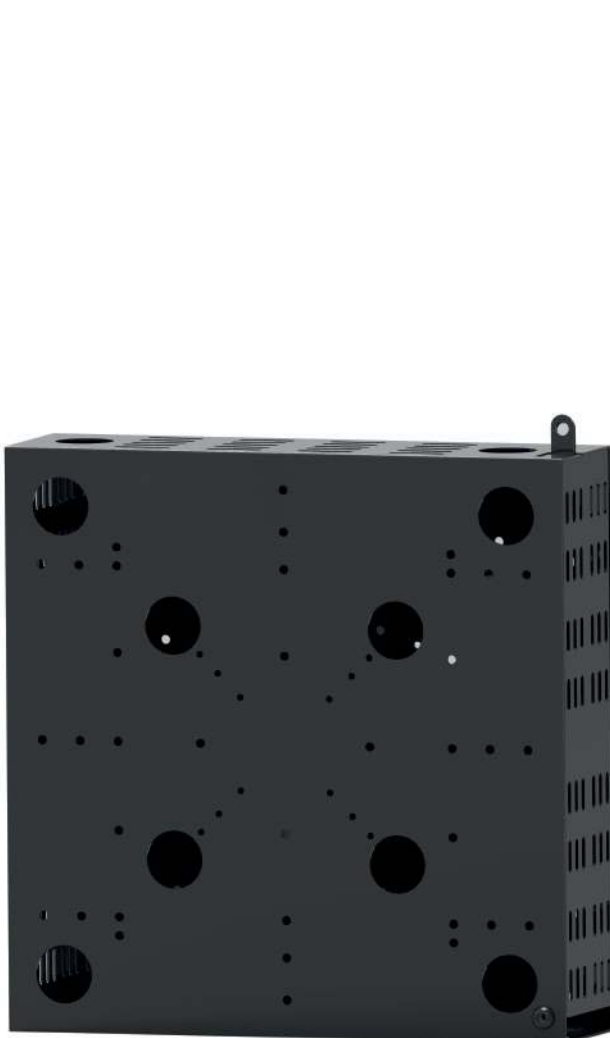

It is suitable for screwing on the back side of many Hagor ceiling mounts and wall mounts as well as free stand systems for screens.

Alternatively the HP PC Box can be used as a fixed wall mount for screens up to VESA 200 max. .

The PC Box has dimensions (outside) of: W 250 x H 250 x D 65 mm and offers enough space for almost all available mini PCs and codecs.

It is also optionally lockable via the side flap.

The load capacity is 30 kg max..
