

MG140 Air RGB

Compact ARGB Mini Tower Case with Modern Patterned Air Vents

We've made COUGAR PC cases even better. The new patterned air vents create a special outlook for your amazing build. Powerful airflow, mighty support for up to a 280mm radiator, a 350mm graphic card, and a 160mm CPU cooler deliver superior value for you.

Patterned Air Vents Design

MG140 Air RGB's front panel features patterned air vents design. It is the chassis that integrates the new concept of minimalist aesthetic and cooling performance. The hollow areas also allow internal lighting to create mesmerizing light effects.

Incredible RGB Lighting

MG140 Air RGB comes with 3 ARGB fans. You are freely to control several amazing lighting effects with the dedicated RGB button. The built-in LED controller also adaptable with any compatible motherboards' 5V ARGB connection for system-wide lighting synchronization. The powerful lights come out of a stylish panel and the reflective surroundings helps reinforce the RGB effects.

Great Support for Components

Its advanced support for up to 350mm-long graphics cards, which allows you to enjoy the latest games with smooth framerates.

Clean and Tidy Looks

With the full-length PSU cavity hides cables and a massive tempered glass left panel presents a clean and tidy build, you can easily showcase your pro-level stunning build!

MG140 Air RGB

Compact ARGB Mini Tower Case with Modern Patterned Air Vents

Top-notch Cooling

MG140 Air RGB's compact layout allows you to install five fans, a 280mm water cooling radiator, and a 160mm CPU cooler. This immense cooling potential will enable you to choose components freely.
