Height: 96mm

Remark

* If the connectors on the motherboard is facing forward, then the thickness supported for the fan is 272mm, minus the length of the SATA cable connector and minus the size of the motherboard. i.e. if the direction of the connectors on the motherboard is upward, then the front fan supports fans with thickness of up to 25mm.
** Supports motherboard size of 248mm minus the fan's total thickness
*** Corresponds to motherboard's connector design, which allows a total height of 23mm, while leaving the 4th PCI slot unoccupied.

Tremendously compact

At a mere 10.35L, great allocation of space allows MILO 11 to house a Micro-ATX motherboard, TFX form factor power supply, and a low-profile GPU length of up to 272mm

Centralized storage components

Constructing MILO 11 to be as compact as possible, a storage device bracket on the top chassis congregates all possible drives into one place

Substantial compatibility beyond expectations
