Sports car spirit lies in every curve and angle

Inspired by muscular curving and dynamic spirit of sports cars, Blaze B50 is tailored to delivering the breathtaking look with powerfully-sculpted lines that represents a sense of movement and appears to be a great attraction for sports car enthusiasts.

Carbon fiber pattern X V-shaped LED indicator

Blaze B50 applies the special surface treatment with carbon fiber pattern that lends the drive an exceptionally energetic gesture. Furthermore, Blaze B50 adds extra excitement to the whole design with the "V"-shaped LED indicator that can not only shows the transferring status but also makes the drive even more stylish.

Features

- SuperSpeed USB 3.0
- Cap-less design with retractable USB connector
- "V"-shaped LED indicator, easier for users to recognize the transferring status
- Special carbon fiber surface treatment
- Smooth-surfaced shape, easy to use and hold
- Sportscar-like design, exclusively dashing style
- SP Widget free download software, providing 7 major back-up and Secure functions
- Recuva File Recovery software, allowing recovery of erased files, such as digital photos, documents, music and videos

Speed, not a problem at all

Blaze B50 offers large capacity choices up to 256GB and introduces the SuperSpeed USB 3.0 interface. Utilizing USB 3.0 specifications, by which professional users can easily and quickly edit or store large files including graphics and HD videos.

Simply a thumb needed, easily everything completed

Blaze B50 employs the intelligent retractable USB connector design which allows an easy thumb-push operation and at the same time, realizes a carefree user experience without worries about cap loss.
