

Aston Microphones

THE BITE-SIZED GUIDE

Aston Microphones is a boutique UK brand making beautiful, innovative and near-indestructible mics which are used on the world's biggest stages and in the studios where the stars make their hits, but priced within reach of everyone.

- UK manufactured
- Innovative ground-up designs
- Developed in conjunction with top artists, engineers & producers
- 4 multi-award winning mics
- Accessory range including the world's best reflection filter

"Aston designs look cool, feel sturdy and sound great!"

TAPE OP MAGAZINE

"An innovative and imaginative company."

SOUND ON SOUND

"Since their launch in 2015, Aston have been making fantastic sounding, affordable mics with unique looks and design features."

RECORDING MAGAZINE

BEST IN CLASS - BEFORE THEY'VE EVEN BEEN MADE...

The Aston 33 are a panel of top musicians and audio professionals who participate in blind listening tests, comparing various prototypes of each proposed new Aston mic plus a couple of expensive 'classics' from other manufacturers.

At each stage the panel vote on which sounded best, and worst, for a range of sources (male and female vocals, guitars etc.) without knowing which they were listening to.

Gradually the Aston is tweaked in accordance with the voting until it is consistently, and pretty much unanimously, judged the best sounding mic of the bunch.

Only then does the project move into final testing and then manufacture.

The panel, still referred to affectionately as the Aston 33 after the founders, has now grown to over 90 members who now help in the development process of each new Aston product.

Aston's first ever mic!

ASTON SPIRIT

£349
395€
\$449

- **Transformer based cardioid condenser mic**
- **Accurate, detailed, transparent**
- **Sparkling highs**
- **Selectable polar patterns**
- **Direct to stand mounting**
- **Built-in pop filter**
- **Beautiful and tough tumbled chassis**

A high-performance switchable pattern microphone utilising a 1" gold evaporated capsule and with selectable Omni, Cardioid or Figure-of-Eight polar patterns.

The Spirit delivers a beautifully open sound with sparkling harmonics. This highly accurate mic gives a stunningly natural and transparent recording, capturing all the detail in the high range but without adding the harshness that some condenser microphones seem to.
