FAST CHARGING

Tired of slow charging? With this adapter, your devices power up faster than you can finish an episode of your favorite show! No more waiting around—this charger gets your devices ready in no time.

CHARGE 2 DEVICES SIMULTANEOUSLY

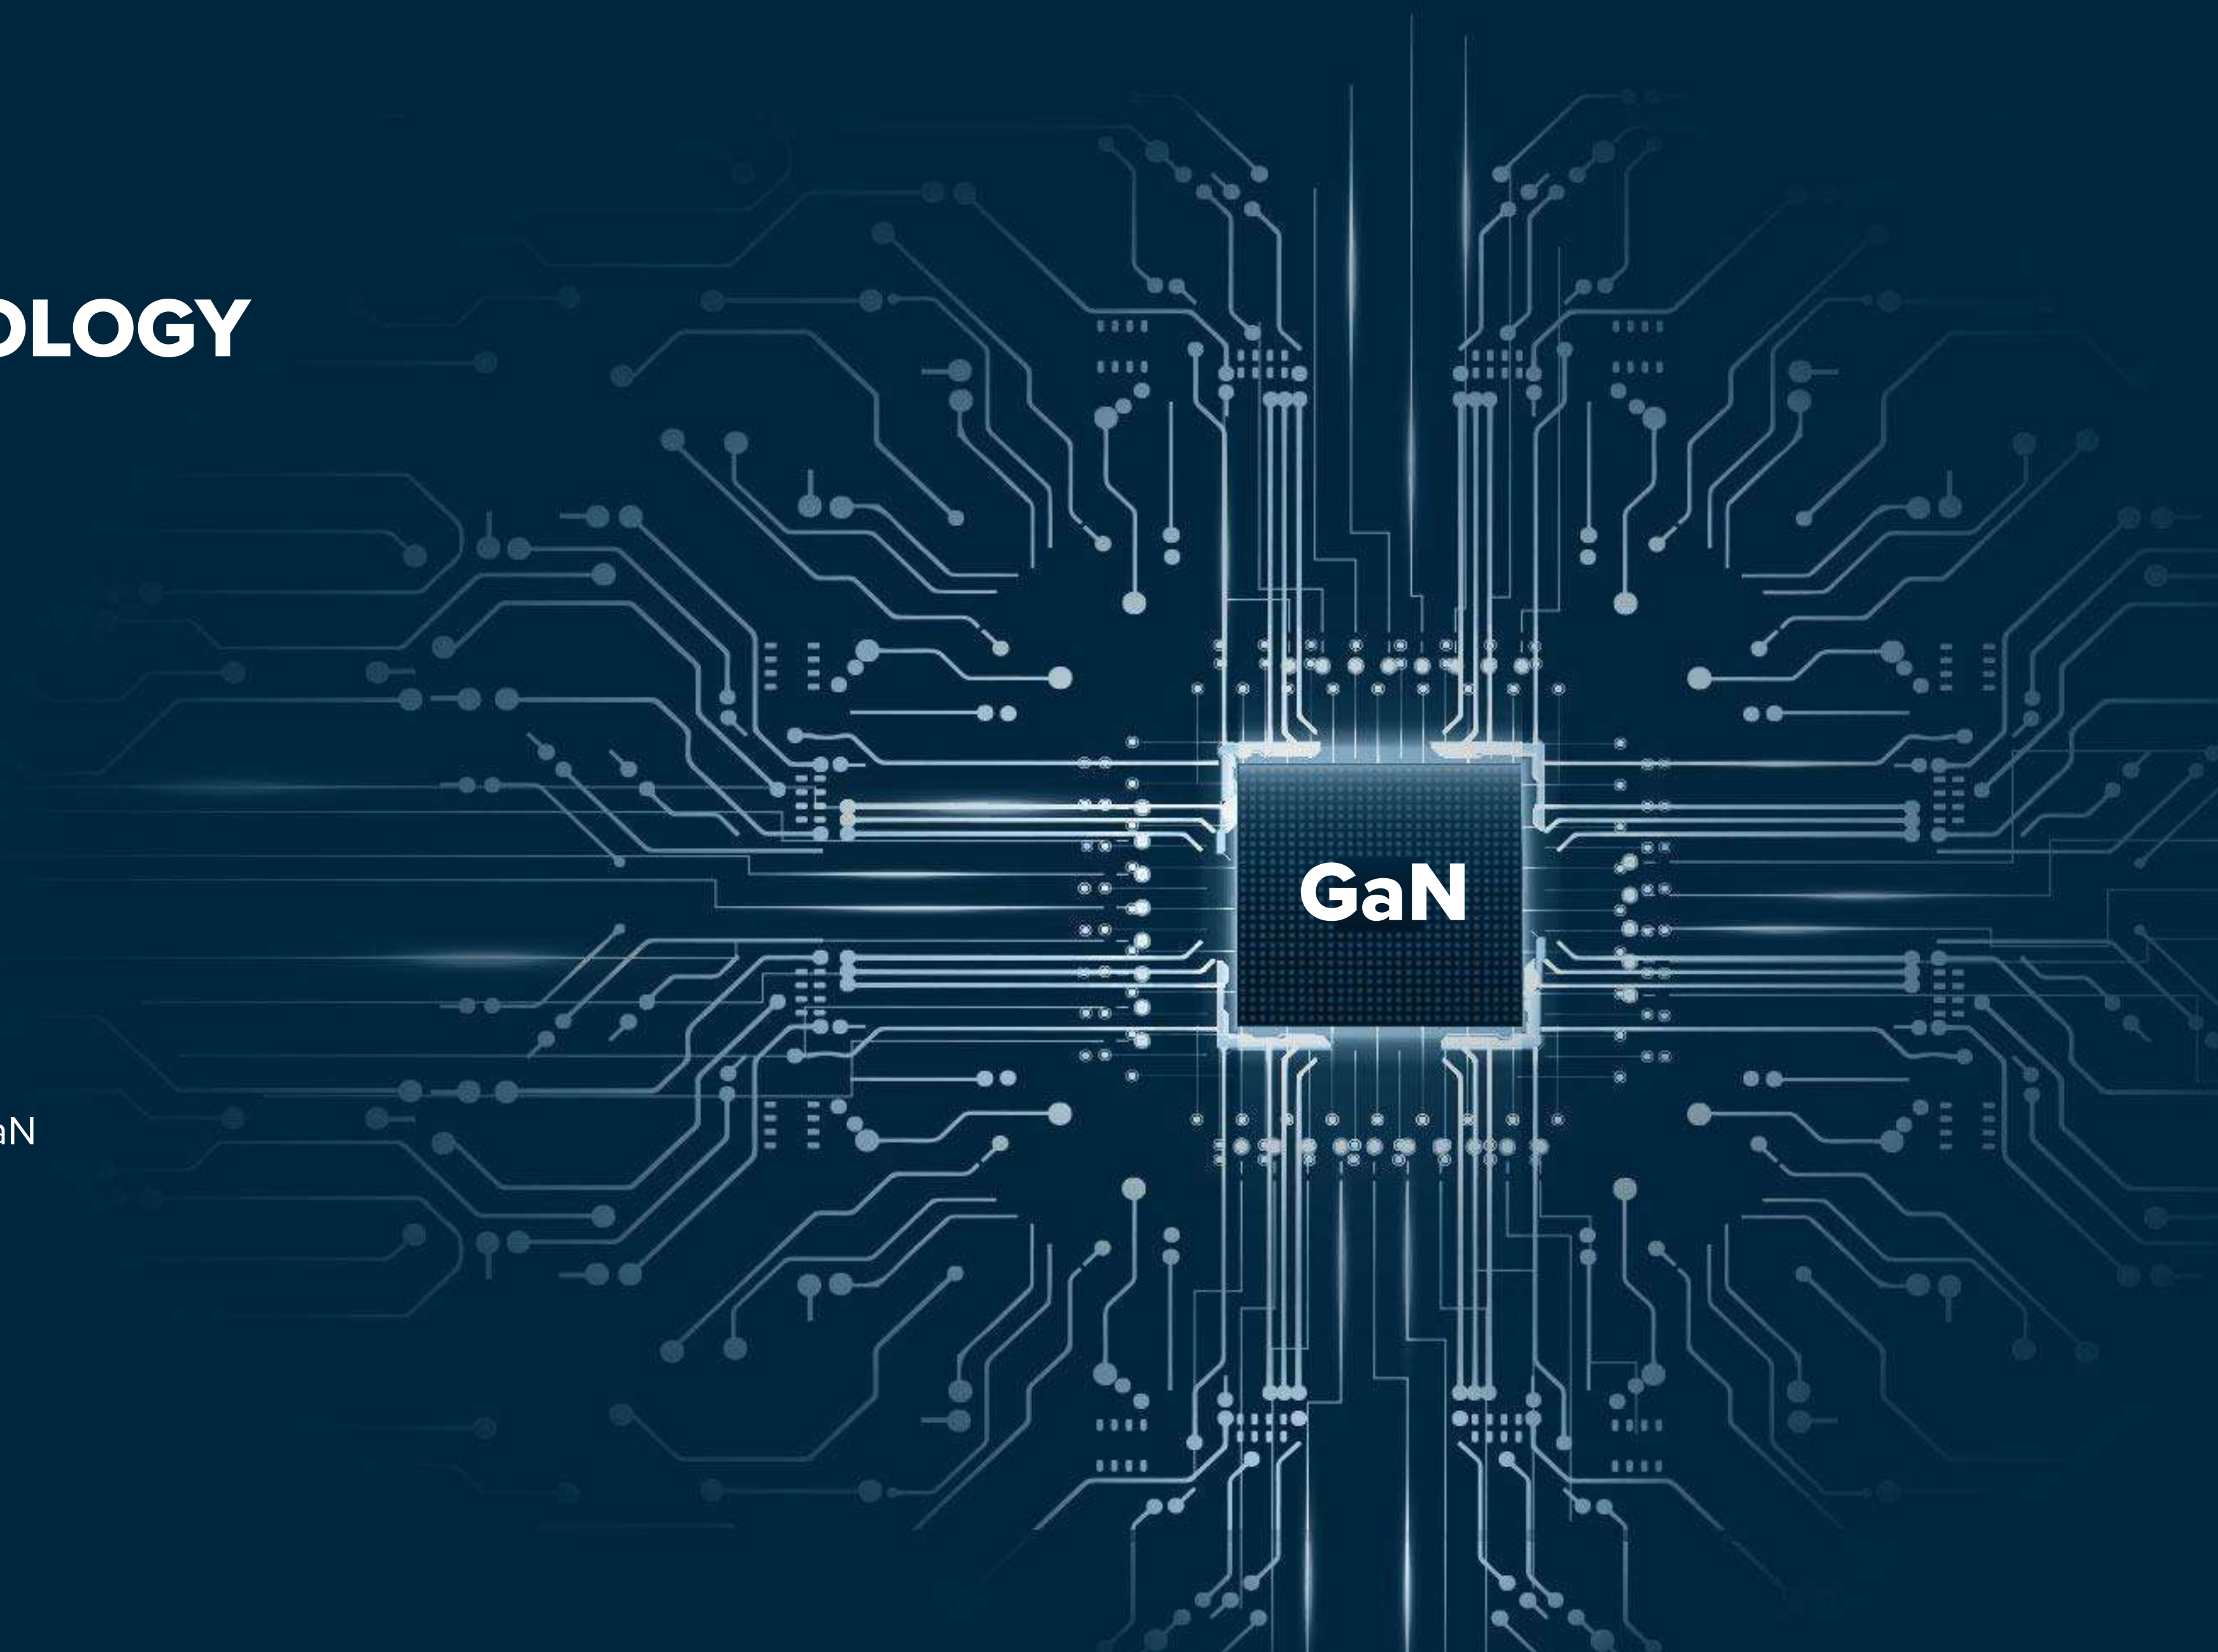

No more playing favorites with your devices!
With both USB-C and USB-A ports, you can
charge two gadgets at once — because
everything deserves a quick boost.

GaN TECHNOLOGY

Smaller charger, bigger power! Thanks to GaN technology, this adapter stays ultra-compact while delivering high efficiency so you get more power without the bulk.

GaN

ULTRA COMPACT

Say goodbye to big chargers! This adapter is sleek and pocket-sized, and it's easy to take with you anywhere. Power on the go hasn't been this light for a while!

2-PORT CHARGING

Double the ports, double the convenience! Charge two devices at once with both a USB-C and USB-A port. Multitasking when you're on the go can now be delightful.

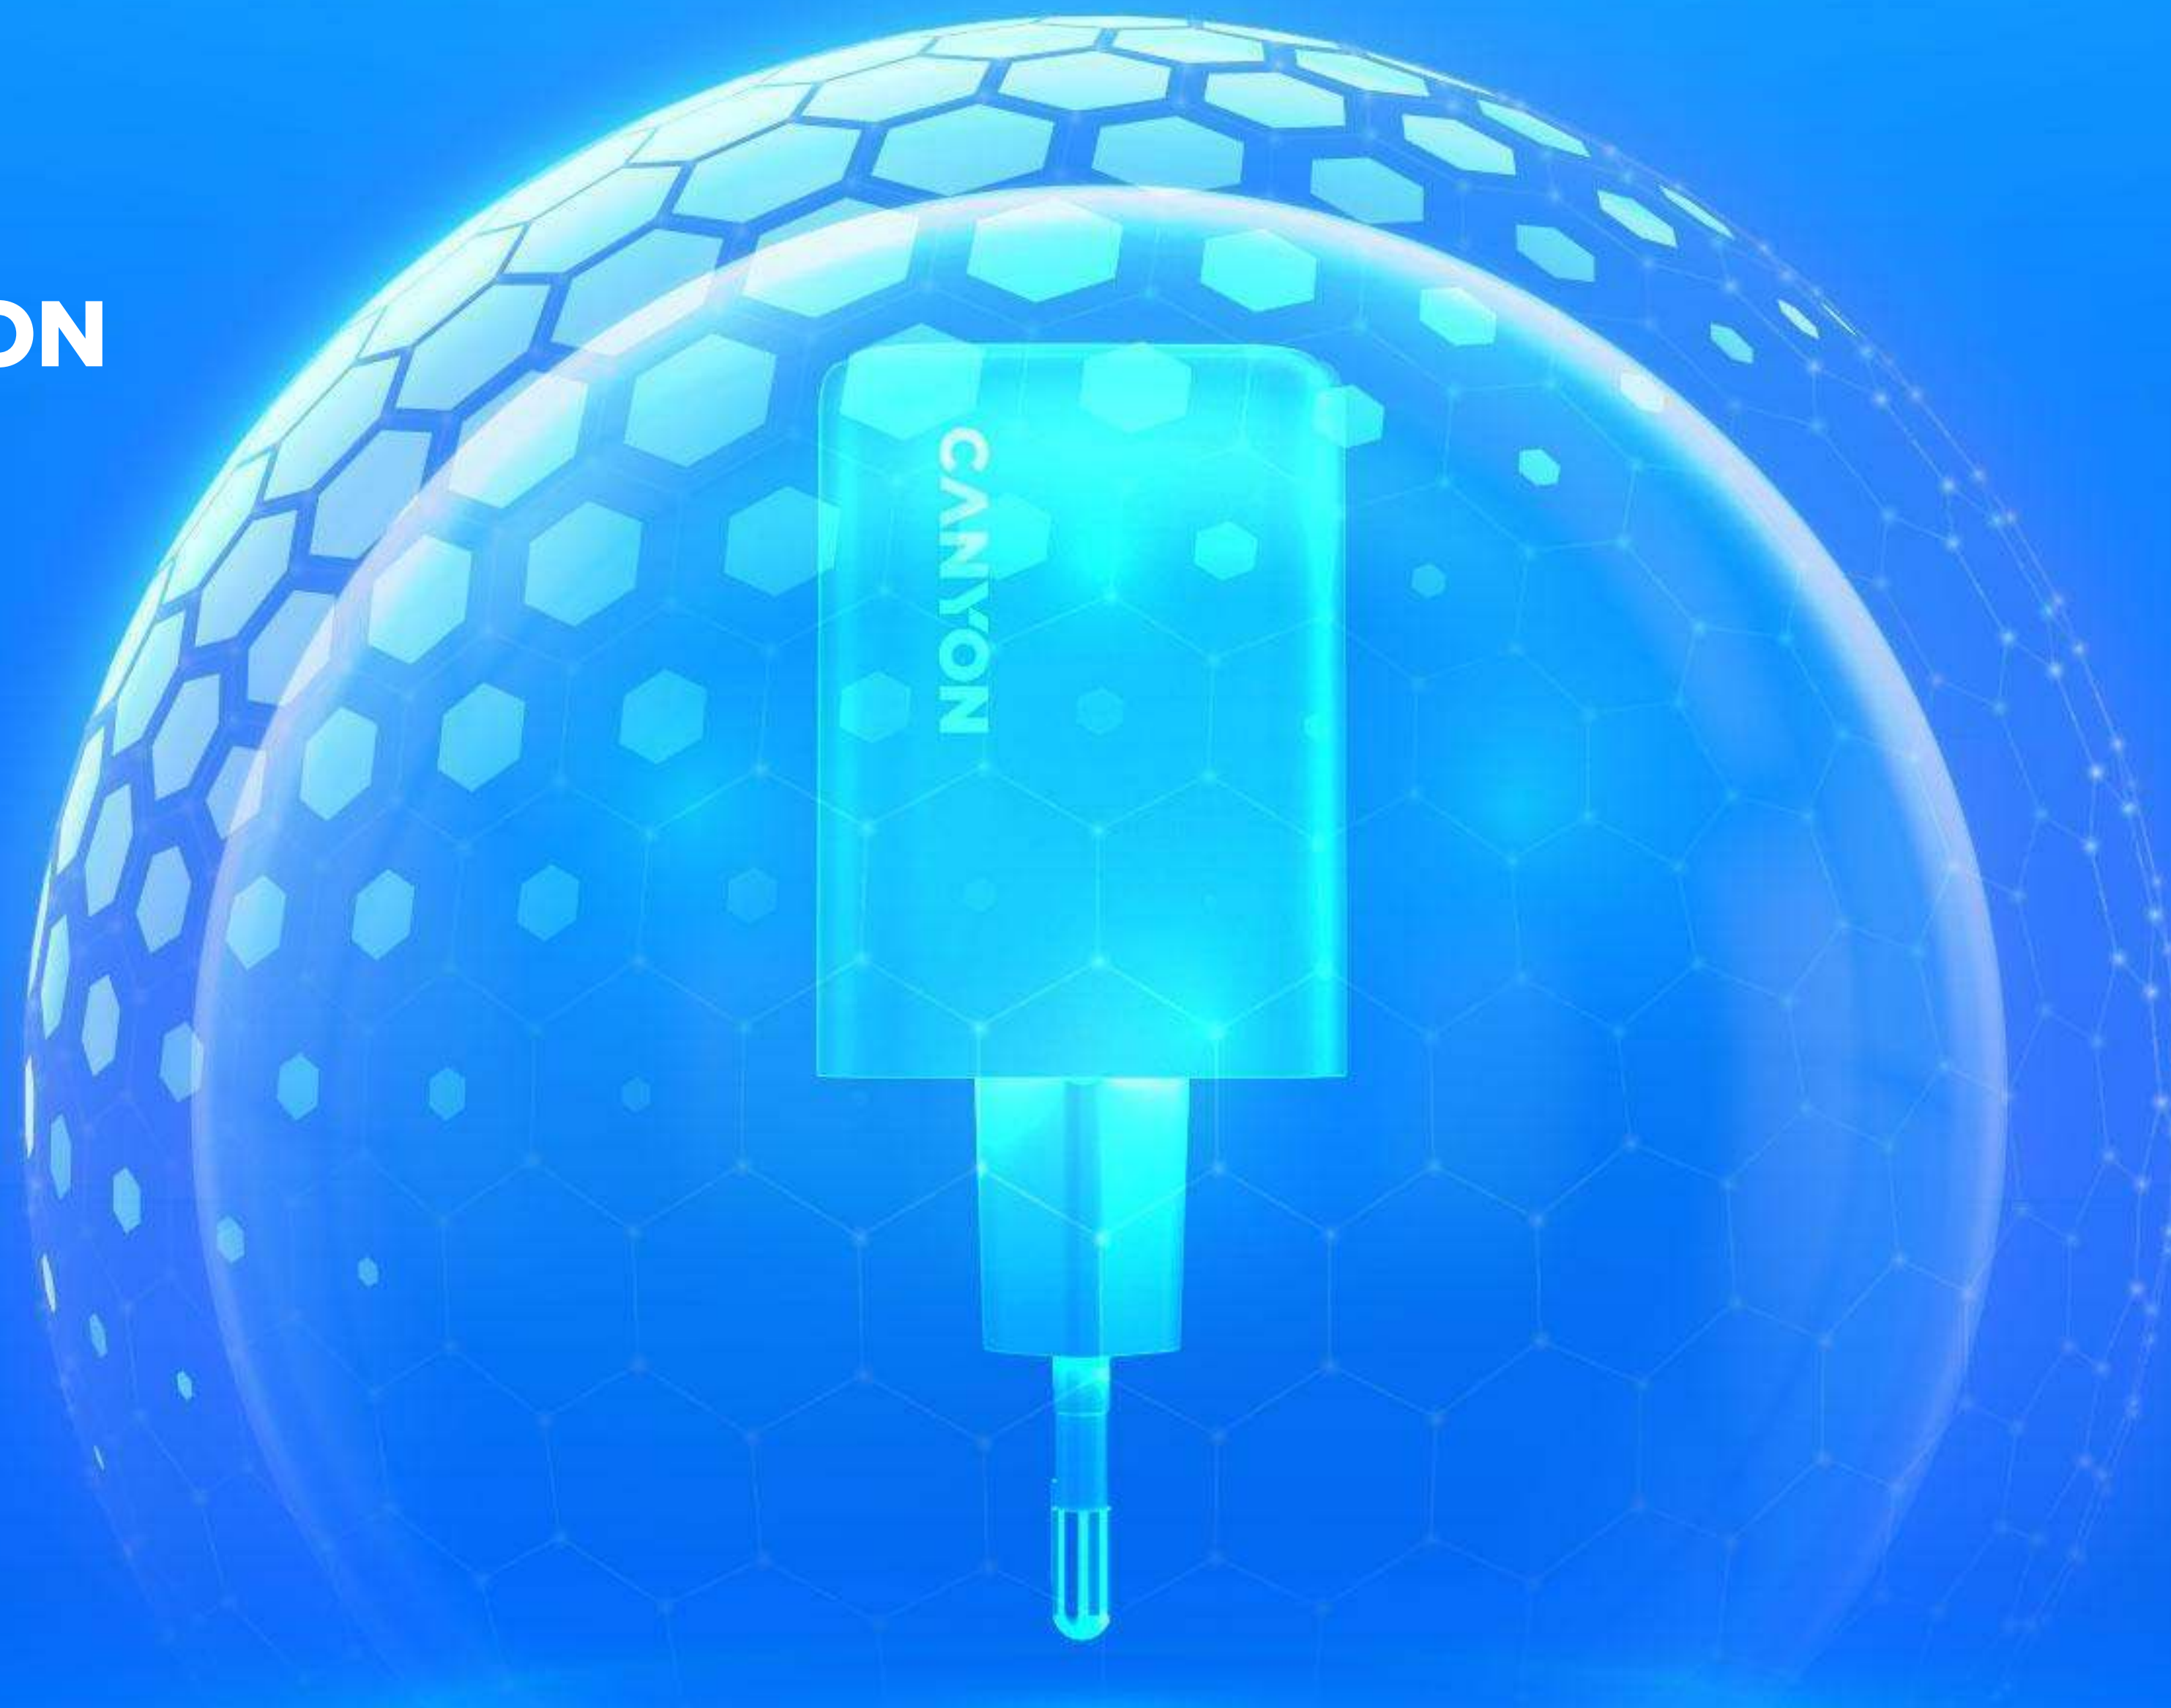

UNIVERSAL COMPATIBILITY

Whether it's your phone, tablet, laptop, or another gadget, this adapter works with almost any device, so you can charge whatever you need, whenever you need it!

HIGH PROTECTION

Charge with confidence knowing this adapter is equipped with over-voltage, overheating, overcurrent, and short circuit protection. Your devices are safe, and so is your inner peace.

MULTIPLE CHARGING COMBINATIONS

You can mix and match your charging needs. Whether you need high power for your laptop or a quick boost for your phone, this adapter handles various charging combinations with ease.

PPS SUPPORT

Power up with precision! This adapter's Programmable Power Supply (PPS) feature adjusts output to match your device's needs, ensuring efficient and safe charging every time.
