MODECOM SILENT FAN MC-CF18 RGB

The new model of the MODECOM MC-CF18 RGB cooling pad is equipped with two large fans with a diameter of 115 mm. It is one of the most effective solutions in cooling stands offered for gaming laptops. MC-CF18 is designed for laptops with new designs up to 18 inches. The LCD display will allow you to easily select the desired cooling mode, starting with the quietest option and ending with the most efficient. Thanks to the modern shape in combination with RGB LEDs, the stand will perfectly fit into most gaming ecosystems.

Key features

MODECOM SILENT FAN MC-CF18 RGB

- ✓ Dedicated to the most demanding laptops for players, reaching even 18".
- ✓ RGB backlight (stand + fans).
- ✓ Two very efficient fans - 115 mm.
- ✓ LCD display.
- ✓ Innovative threshold design for laptop support.
- ✓ Large range of tilt angles.
- ✓ The upper metal surface stiffens the structure and guarantees a stable and even position of the laptop.
- ✓ Non-slip rubber pads.
- ✓ HUB USB: USB1.1*2

MODECOM SILENT FAN MC-CF18 RGB

Notebook cooler

Two very efficient fans

In addition to the fantastic design, the MODECOM MC-CF18 pad is characterized by quiet operation, thanks to the installed only two 115 mm fans in the SILENT FAN technology. 6 fan modes allow you to choose the right speed.

Rigid metal surface

Metal surface stiffens the structure and guarantees a stable and even position of the laptop.

RGB backlight

Impressive RGB LED backlight - up to 10 operating modes.

Control panel

The control panel equipped with an LCD display enables the fan speed to be controlled. You can also turn them off from the panel. The last button is used to change the RGB backlight operating mode.

GAMING DESIGN AND FUNCTIONALITY

The MODECOM SILENT FAN MC-CF18 RGB pad is very solid. It was made of high-quality materials. Its upper part is made of thick metal, which stiffens the structure and guarantees a stable and even position of the laptop. The stand has been designed with the highest comfort of use in mind.

This model uses several technological solutions that make working with a laptop a pure pleasure. Two folding legs deserve special attention, as they allow you to change the level of the pad's inclination angle in a very wide range. In turn, the double USB port (USB HUB) located on one of the sides, allows for a comfortable connection to a laptop, without having to block the USB port.

Additionally, in order to increase the stability of the pad, four non-slip rubber pads have been placed on its underside. The upper part also has rubber non-slip pads for maximum protection of the laptop against slipping. Great design, including RGB backlight and efficiency, make MODECOM SILENT FAN MC-CF18 RGB perfectly fit into most gaming ecosystems.

Technical specification

MODECOM SILENT FAN MC-CF18 RGB

LAPTOP PAD

1. Dimensions: 410*280*34mm
2. Materials: Aluminium, tworzywo sztuczne / ALLOY, Plastic
3. Operating voltage: DC 5V
4. HUB USB: USB1.1*2
5. Adjustable angle: 6,5-45 degree
6. LCD display
7. Cable length: 60cm
8. Compatible laptops: max 18"
9. Weight: 750g

FANS

1. Fan dimensions: 115*115*15mm(2pcs)
2. Air flow: 72CFM
3. 6 modes of fan speed
4. Fan speed: 1200±10%RPM
5. 10 trybów podświetlenia RGB / 10 RGB modes

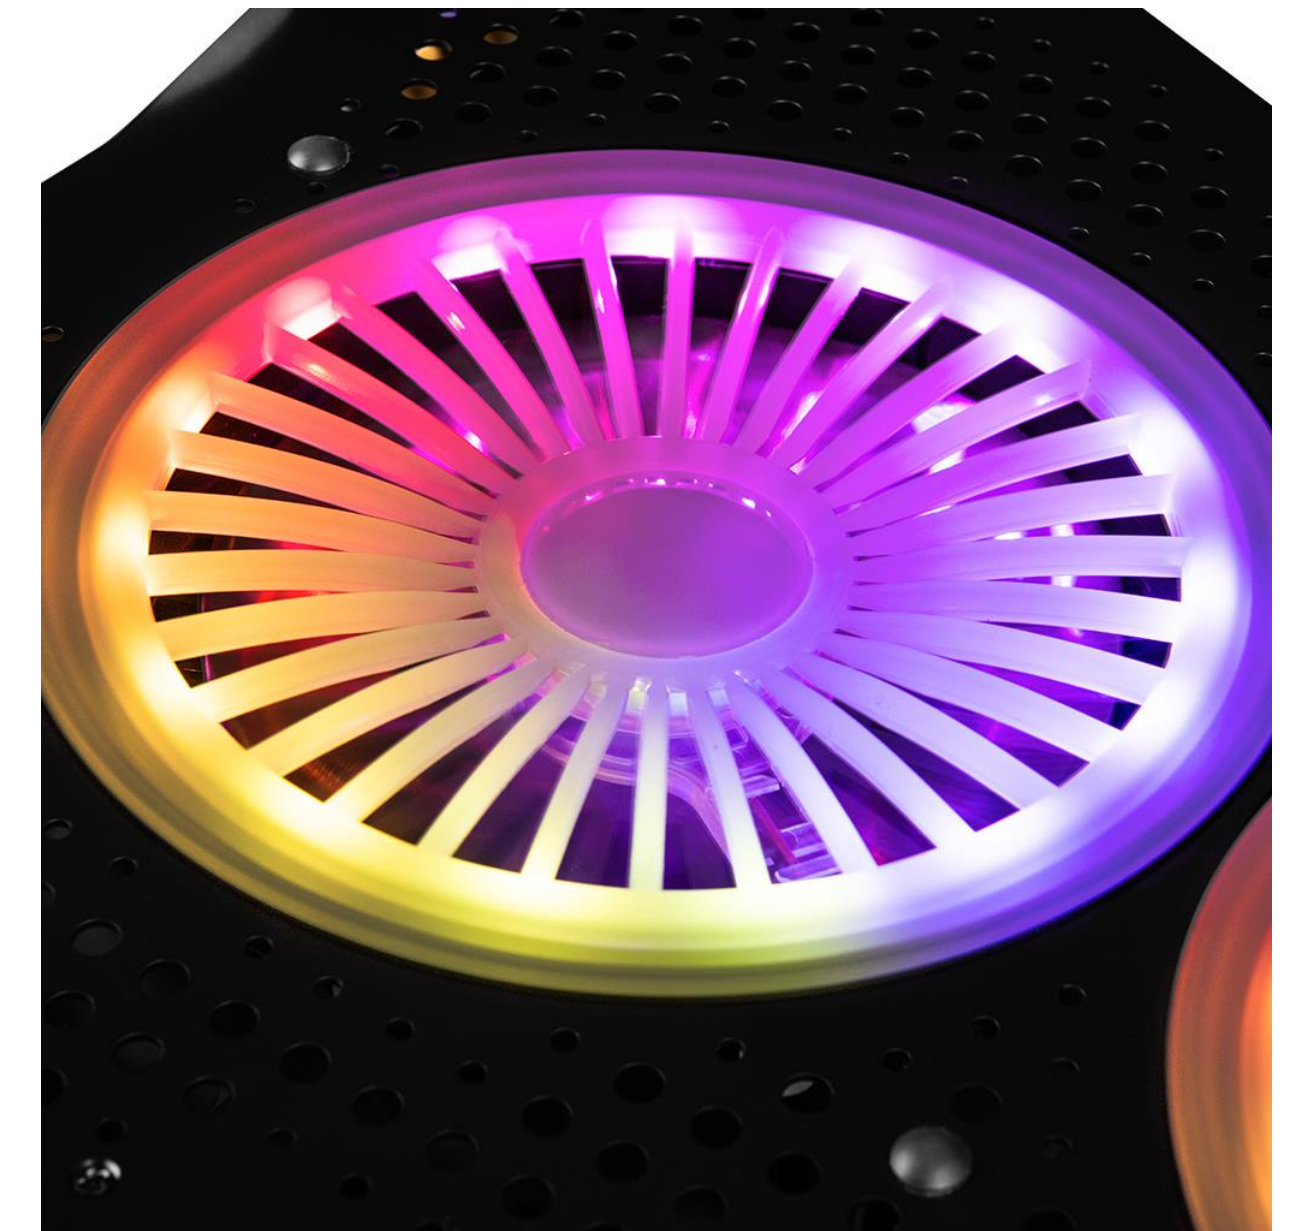

Code: PL-MC-CF-18-RGB

EAN: 5901885241838

In carton: 10 pcs

Carton dimensions: 45 x 40,3 x 31,6 cm

Carton gross weight: 12,5 kg
