RS-01 is a portable radio that lets you enjoy your favorite music wherever you are. The foldable antenna ensures a stable reception of radio stations, while the practical dial allows for precise frequency tuning and easy volume adjustment. With Bluetooth 5.3, you can connect the radio to your phone in seconds—no cables or complicated setup required. The high-capacity built-in battery provides hours of uninterrupted playback, and the wide frequency range delivers rich and detailed sound. RS-01 features a compact and stylish design, making it the perfect companion for travel, work, or home use.
