

DESCRIPTION

TRACER Cozy RF 2.4 GHz wireless optical mouse

Fed up with wires tangling round my desk? Switch to the Tracer Cozy wireless mouse and free your space from wires once and for all. The Tracer Cozy wireless mouse is a perfect companion for everyday tasks. Smart, ergonomic and original design, six functional buttons and an optical sensor make it an ideal tool for mobile work – at home, in a cafe, or at an airport.

- 6 buttons and scroll wheel.
- Energy-saving battery system.
- Resolution of 800/1200/1600 DPI.
- Right-handed fit.
- Thumb rest.
- Side buttons.
- 2.4 GHz wireless connectivity.
- Plug & Play technology.

Comfortable work wherever you are

Reliable and stable wireless connectivity with a range of 10 meters, provided by RF 2.4 GHz technology. All you need is a small USB nano receiver plugged to a free USB port and your wireless mouse is ready to go. After work, you can insert the USB receiver in a dedicated pocket in the mouse to make sure it does not get lost.

Optical sensor

Work in Excel, surf the Internet or browse social media sites – all with precise clicking and dragging. With the Tracer Cozy mouse with a precise optical sensor that operates at resolutions of up to 1600 DPI, everything you do on your computer will be easier and more enjoyable. You can adjust the sensor sensitivity levels to your current activity. You can switch between 800 - 1200 - 1600 DPI using the dedicated button above the scroll wheel.

Right-handed fit

The ergonomic profiling of the mouse designed for right-handed users ensures a perfect hand fit. The mouse has a special thumb rest and intuitively arranged side buttons that can be conveniently operated with your thumb. The ergonomic profile of the mouse does not strain the wrist during work, which allows you to avoid wrist strain after a few hours of use.
