Inspired by Esports Players

H2002E is designed for gamers who own a spirit of adventure and features a design inspired by esports players. Using steel-reinforced sliders, the design of headphones combines fashion and futuristic style.

Immersive Surround Sound

Equipped with customized 50mm drive units, it delivers clear highs and mids, as well as deep, punchy bass. To experience true-to-life acoustics and hear sound from every angle as if you were right in the middle of the game.

Lightweight Comfort

At just 298g, the soft protein leather earpads, thicker head pads and adjustable head beam make it comfortable to wear during long streams or marathon gaming sessions.
