GLACIER
GAMING COOLING PAD

USER MANUAL

1. Put your laptop cooling pad on a flat surface.
2. Set the desired angle of the cooling pad.
3. Install the anti-slip pad to prevent your laptop from sliding. Then, set the laptop on the cooling pad.
4. Connect the USB to the available port of the cooling pad and to your laptop.
5. To turn on/off your cooler LED light, press the  button.
6. Rotate the button at the top of the cooling pad to adjust the fan speed.

UPUTE

1. Postavite cooling pad na ravnu površinu.
2. Namjestite željeni kut cooling pada.
3. Postavite anti-slip pad, a zatim postavite laptop na cooling pad.
4. Spojite USB kabel na priključak cooling pada, a drugi kraj u laptop.
5. Pritisnite gumb  kako bi uključili/isključili LED osvjetljenje.
6. Rotirajte gumb na vrhu cooling pada za podešavanje brzine ventilatora.
