

Konftel 55

Hub for smooth meetings

The Konftel 55 is a stylish and easy-to-use speakerphone with impressive, crystal clear HD sound thanks to our OmniSound® audio technology. The touchscreen makes controlling calls simple, whether you're connected to a computer, mobile phone or desk phone.

The Konftel 55 is fully compatible with the market's leading UC applications. The speakerphone connects directly to Skype for Business, Cisco Jabber or Avaya Communicator on your computer. The app's call functions are controlled from the touchscreen. If you prefer a different conferencing tool, the Konftel 55 is still a high-quality USB audio device.

OmniSound®

- Meeting size: Up to 12 people
- Connection to desk phone (adapter)
- Connection to cell phone (cable)
- USB for collaboration
- Integration with UC clients
- Recording on memory card
- Combine different connections
- Two-year warranty

A CONVENIENT HUB

The Konftel 55 serves as a hub for your communications, connecting to computers, mobile phones/tablets and desk phones. Calls via a computer can be bridged with calls via a desk phone or mobile phone. Switch and combine connections easily on the touchscreen, which only shows the options available at the time.

SMART FEATURES

Record calls or dictations onto a memory card and save, play or share the audio files with ease. The Konftel 55 is light to carry around with you and looks just as good on a desk and in a home office as it does in a conference room. The software is constantly being improved and can be updated easily using a tool on your computer. This makes the speakerphone a future-proof investment.
