

## Embedded Solutions

## microSD Cards

# microSD

The ideal choice for small form factor devices with high performance demands, Transcend's High Capacity microSD cards are specifically designed for use in digital cameras, DV recorders, mobile phones, and other small devices. To ensure reliability and endurance, these microSD cards are manufactured using brand-name MLC NAND Flash chips and undergo extensive reliability testing at all stages of production.

## Features

- Mechanical write protection switch on adapter
- MicroSD adapter allows it to be used in standard SD Card slots
- Built-in Error Correcting Code (ECC) to detect and correct transfer errors
- Exclusive RecoveRx photo recovery software

## Ordering Information

|     |         |                             |
|-----|---------|-----------------------------|
| 1GB | TS1GUSD | Three-year Limited Warranty |
| 2GB | TS2GUSD | Five-year Limited Warranty  |

## Specifications

## Mechanical Dimensions

Product specifications are subject to change without notice. Pictures shown may differ from actual products. Total accessible capacity varies depending on operating environment. Due to the complexity and variety of industrial applications, Transcend cannot guarantee 100% compatibility with all platforms and under all scenarios. For special applications and environments, it is strongly suggested that you contact Transcend beforehand for clarification.
