## DDR4

MODULE | ELITE SERIES

# Team ELITE

## (DDR4 2133/2400/2666/3200)

TEAMGROUP' s ELITE series has released an all new DDR4 SO-DIMM product which is compliant with JEDEC international standard. With only 1.2V of working voltage, it can save electricity use by 20% compared to its last generation. Therefore, the heat generated from the product itself can also be reduced and maintain the surrounding temperature of the system. It is 100% compatible with INTEL' s latest X99 & Skylake chipset. With selected high quality IC chips and strict testing standard, it is the perfect choice for laptop users, who seek for excellent quality, optimal performance, stability and compatibility.

## Main Feature

- ☐ All new generation product of DRAM module
- ☐ 1.2V memory module
- ☐ Massive 32GB Kit
- ☐ Lifetime warranty

## Specification

| Item                    | Specification                                                 |
|-------------------------|---------------------------------------------------------------|
| Type                    | NOTEBOOK                                                      |
| Module Specification    | 260 PIN SO-DIMM                                               |
| Dram Configuration      | 512x8, 1024x8, 2048x8                                         |
| Capacity                | 4GB / 4GBx2 / 8GB / 8GBx2 / 16GB / 16GBx2 / 32GB / 32GBx2     |
| Data Transfer Bandwidth | PC4 17000 / PC4 19200 / PC4 21300 / PC4 25600                 |
| Cl Value                | CL15-15-15-36 / CL16-16-16-39 / CL19-19-19-43 / CL22-22-22-52 |
| Working Voltage         | 1.2V                                                          |
| Pcb                     | 8/10 LAYER PCB                                                |
| Warranty                | LIFETIME                                                      |
