Highlights

Trim-n-Flow Pro technology

The innovative comb design allows cut hair to flow away from the blades during use, preventing even long hair from getting stuck in the comb, so you can start and finish your style without interruption.

DualCut Technology

The Philips Hairclipper 7000 features advanced DualCut Technology for maximum precision. It comes with double blades, and is designed to stay as sharp as day 1.

28 lock-in length settings

Cut your hair to the exact length you want with 2 adjustable combs that cut between 3 mm and 28 mm at 1 mm increments, a 2 mm stubble comb or remove the comb for a close 0.5 mm trim.

Cordless and corded use

Don't get tangled up in your cordless hair clippers — one hour charge provides up to 90 minutes of powerful clipping time. Or keep it plugged in for uninterrupted trimming.

Body groomer built to last with no oil required

All of our body grooming products are built to last. They come with a standard global 2-year warranty, including the option to extend up to 5 years* and they never need to be oiled.

100% washable**

Simply rinse your clipper under the tap for fast and easy cleaning.

Turbo mode

The hair clipper for thicker hair. Just press the Turbo mode button for an extra boost of power.

Comfortable grip

Philips clippers feature a textured grip for easy handling, ensuring that you can cut your hair with control and comfort.

Zero maintenance

Clipping power that's easy to maintain—our blades never need oiling.

Extra beard comb

Trim your stubble or quickly touch up your hair with the additional 2 mm beard comb.

Highlights

Barber kit with storage case

Create a salon standard experience with the Philips Barber kit. The cape, scissors and styling comb comes in a sturdy storage case for extra convenience.

Stainless steel blades

The self-sharpening steel blades are designed to be incredibly long-lasting. Even after 5 years they cut with the same precision and accuracy as day 1.

PowerAdapt sensor

The PowerAdapt Sensor checks the hair density and automatically adapts the motor to maintain constant power. This way, regardless of hair density and length, a constant trimming performance is achieved.
