

CHROMAX

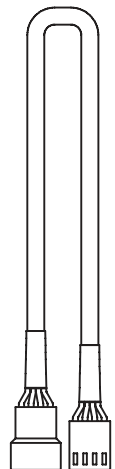

NOCTUA NA-SYC1 NOCTUA NA-SEC1

Noctua's chromax line NA-SEC1 extension cable and NA-SYC1 y-cable sets enable users to take one step further in colour-customising their fans: available with red, blue, green, yellow, black and white sleeving, the cables allow a PC build to be colour-coordinated down to the smallest detail and are an ideal match for the new chromax.black.swap edition fans.

While the NA-EC1 30cm extension cables provide extra reach in larger enclosures, the NA-YC1 y-cables make it possible to run two 4-pin PWM fans on a single fan header and to let the motherboard control the speed of both fans simultaneously.
