Premium Performance

Engineered with professional applications in mind, the DisplayPort Cable with 4K Support utilises highly flexible cable – 30AWG [up to 3m] and 28AWG [5m-plus] cable – for reliable performance and easy installation at home or in business settings. It's PVC-moulded, low-profile connectors are comfortable to grip, simple to insert [they can't fall out once connected], and robust enough to stand up to use in high traffic environments.

User-Friendly Cables for Home and Business

Engineered with professional applications in mind, the DisplayPort Cable with 4K Support utilises highly flexible cable – 30AWG [up to 3m] and 28AWG [5m-plus] cable – for reliable performance and easy installation at home or in business settings. It's PVC-moulded, low-profile connectors are comfortable to grip, simple to insert [they can't fall out once connected], and robust enough to stand up to use in high traffic environments.

User Interface

Input	DisplayPort (Male)
Output	DisplayPort (Male)

Video Support

DisplayPort 1.2 / HBR2 (21.6 Gbps) class cable
(Backwards compatible with all previous DisplayPort standards)

- Supports up to 4K/UHD 4096x2160 at 60Hz
- Refresh rates to 240Hz at 1080p

Compliance

RoHS, REACH

Package Includes

1x DisplayPort to DisplayPort Cable
