Designed for Professionals

Despite its slim design, the Echelon Wireless Keyboard delivers a first-rate typing experience, with full-size, comfortably-spaced keys that make composing long documents quick and accurate.

Designed for macOS Productivity

Echelon's extended 109 key layout features a full number pad to speed up spreadsheet work and a variety of single-click office shortcuts, including Select All, Cut, Copy and Paste.

Switch devices with a single click

The Echelon Wireless Keyboard for macOS can store up to three paired bluetooth devices, making it easy to multitask with your iPad and MacBook, or share a keyboard at a hotdesk.

No Batteries Needed

Echelon features an integrated, USB-C Charging battery which lasts weeks between charges, saving you the expense and hassle of swapping batteries in and out.
