Work Glare-Free and see your Work clearly

Designed to effectively reduce the unwanted glare resulting from ambient lighting. By using the shading hood, the color accuracy of your photos can be assured.

*The SH242 shading hood is specifically designed for landscape orientation and is not compatible with multi-screen setups.

Anti-Glare Material

To minimize reflected light even further, even the material for the SH242 shading hood was carefully chosen. The special fabric can absorb most of the light, preventing reflected light on the screen, allowing photographers to see their photos as they're meant to be seen.
