[Lanview LV-6AFTP-FLEX-ANG-0025W networking cable:](#)

Lanview Flex-Angle Cat6A patch cables have a bendable angle.

The transition from plug and cable can be angled in all four directions, with up to 90°.

This is made possible by a combination of very elastic plastic and flexible metal strands which are incorporated in this cable.

Info:

Choose your angle before plugging the cable into the RJ45 jack. If you bend the angle while the plug is already plugged in in the RJ45 jack it could damage the network jack.
