Keyboard K120 for Business

Logitech Keyboard K120 for Business:

The Keyboard K120 for Business is the budget-friendly keyboard that's built to last. You'll enjoy a comfortable and quiet typing experience thanks to the low-profile keys that barely make a sound and standard layout with full-size F-keys and number pad. With its thin profile, spill-resistant design,* durable keys that can withstand up to 10 million keystrokes** and sturdy, adjustable tilt legs, this sleek keyboard not only looks and feels good-it's built to last. A plug-and-play USB connection means no software installation or IT hassles. Bold, bright white characters make the keys easier to read. And it all comes with the high quality and reliability that's made Logitech the global leader for keyboards and mice.

* Tested under limited conditions (maximum of 60 ml liquid spillage). Do not immerse keyboard in liquid.

** Excludes number lock key.
