

InLine® Premium Quick Charger, NiCd+NiMH AA and AAA, up to 1000mA

* Preise inkl. gesetzlicher MwSt. zzgl. Versandkosten

Marke: INL

Bestell-Nr.: 01287

The InLine® Premium charger is exclusively suitable for NiCd and NiMH, AA and AAA batteries and is a quick and easy solution for testing, charging, discharging or refreshing batteries.

- Input power: DC 12V/1,5A 100-240V
- Power: 18W maximum
- Suitable for 4x NiMH or 4x NiCd battery round cells type AA & AAA
- Selectable LCD display: charging time, voltage, current or capacity
- Variable charging current: 200mA, 500mA, 700mA and 1000mA
- Variable discharge current: 100mA, 250mA, 350mA and 500mA
- Built-in protection against: Overcharging, overheating, overvoltage and short circuit
- Discharge function, prevents the memory effect
- The charging time does not have to be checked, it ends automatically when the battery is fully charged.
- Capacity test function to find out the actual capacity of the battery in mAh
- Additional USB socket: 5V DC / 1A, allows e.g. the connection of a smartphone or similar USB devices
- Packing content: Charger, Power adaptor 100-240V, Manual
