EIS CUBE MAKER Freeze 48935

Unold Ice cube maker Freeze:

Cocktails & Co. - drinks should be really cold. With the ICE CUBE MAKER Freeze you can make up to 60 ice cubes in 1 hour - coolness at the touch of a button. The water tank holds around 1.6 liters and then fills the ice cube container with around 700 g of refreshing cubes. You can always see the production progress through the large viewing window. If the ice cube container is full or the water tank is empty, the indicator light signals this. Nothing can go wrong. The practical residual water drain on the bottom also ensures this. A clean affair: the device is happy to rinse the water circuit! And all parts that come into contact with the ice cubes are BPA-free!
