Indispensable in every farm: the ultimate disc harrow! After ploughing or harvesting, the soil needs to be worked quickly to keep weeds and pests at bay and preserve valuable soil moisture. This is exactly where our disc harrow comes into play! Similar to a plough, it is attached to the tractor and off you go. This disc harrow not only looks super cool, but is also incredibly efficient. And the best thing? It fits perfectly on all siku trailer couplings of the 1:32 scale tractor models. Simply attach it, fold it out and it's ready for use! The vehicle frame is made of robust metal so that it can withstand even the toughest applications. The fold-out arms are equipped with movable plastic discs that work their way effortlessly through the ground.
