FAB's:

Feature (HAS)	Advantage (WHICH MEANS)	Benefit (SO THAT)
Polyester film	Durable	No need to replace torn or dog-eared index. Saves time.
Unique low tack adhesive	Repositionable + removable.	Can be used on originals to save time and make jobs easier.
	Holds securely, yet removes cleanly.	No adhesive residue to clean up, saving time and money.
	Won't dry out or harden.	Reapplication and duplication of work is not required. Saves time and money.
	Won't soak through paper.	Won't ruin originals. Saves replacement costs.
	Low static.	Allows controllable positioning.
Translucent matte finish.	Allows you to see through the area taped over (except in inked area).	Information is not covered up, and will not shadow when copies are made.
	Extremely long aging and non-yellowing.	Eliminates reapplication, will remain translucent indefinitely, saving time and money.
Printed icon	Requests action.	Draws attention to a specific place on a file, or document. Convenient to use. Easily seen information.
Dispenser	Protects Post-it® Index. Easily portable, controlled dispensing.	For clean, neat, professional tape applications.
	Post-it® Index are dispensed easily.	Product is not wasted and is always ready for quick, easy use. Saves time and money.

Applications: flagging pages in reports, books and catalogs... Calling attention to specific points on report pages, magazine articles and computer printouts...

Laboratory studies have shown that Post-it® Index remove cleanly from most common office materials such as sulfite bond paper, 25% cotton bond paper, yellow legal paper, manila folders and common office surfaces such as painted wallboard, wallpaper, finished woods, metals, plastics and upholstery at normal office temperatures and humidity for a period up to one year.

Test removability before using. Avoid use in applications where clean removability from clay-coated, specially treated paper or onion-skin paper is required. May not remove cleanly from some blueprint papers. This product is not suitable for packaging applications.

Technical note: on recycling the dispensers, we cannot make the claim that dispensers are recyclable (although they are) because there is no national program to reclaim this type of plastic from homes, and/or offices at this time (depending on the country).
