Wall-mount paging station, LCD, Black

Biamp Vocia WS-10 Office:

DESCRIPTION

The Vocia WS-10 is a wall-mounted networked paging station that supports both standard and advanced public address functionality. Featuring embedded DSP, PoE, and on-board memory, all device-specific configuration information is stored locally, which means the WS-10 does not rely on a centralized controller for processing and page routing. The Vocia WS-10 complies with the United States Trade Agreement Act (TAA), allowing it to be included in GSA Schedule contractors' sales bids for the U.S. federal government.
