Shadow Dragon

schleich ELDRADOR CREATURES Shadow Dragon:

The Shadow Dragon is barely visible when it flies through the night. It's lightning-fast and, above all, perfectly camouflaged with its dark lizard skin. In contrast, its mighty wings are bright purple, and it sports sharp purple spikes on its long lizard tail. It may look nice, but make sure you don't get too close. The Shadow Dragon is dangerous!

The Shadow Dragon may be a quick flyer, but its bone-chilling roar always precedes its dark shadow. Wherever it goes, fear follows! At first glance, you may be captivated by its dark scales and shimmering purple wings. But don't overlook its rock-hard jaw and sharp teeth, which it uses to effortlessly crush its opponents! Take it from us—it's best to admire this perilous inhabitant of the Shadow World from a distance!
