Jungle Dragon

[schleich ELDRADOR CREATURES Jungle Dragon:](#)

Everything about the Jungle Dragon looks dangerous. Its mighty green wings are covered with spikes and even its tail is covered in nasty, pointed thorns. You really don't want to get on the wrong side of it. Oh no, it's already opening its mighty jaws and baring its sharp teeth. Pretty scary! Everyone feels safest when the dragon is circling the skies far away above ELDRADOR®.

The Jungle Dragon has a firm grip on the Jungle World. No one dares dispute its supremacy. Why? Just one look at those powerful jaws, ready to crush anything, is enough. It bares its needle-sharp teeth threateningly. Anyone who gets too close is in danger of a painful blow from that powerful tail. It's even covered in sharp spikes for good measure. The dragon is better viewed from a distance, like when he spreads his huge wings and soars into the air. That's also its favorite place to be, because, from up there, it can keep an eagle eye on ELDRADOR®.
