Siku 3563 scale model Front loader model Preassembled 1:50:

A wheeled loader is very versatile: Moving soil, shovelling rubble, transporting pipes or stone slabs. Whether on a construction site, in a gravel pit, or on a farm – the compact construction machine is an essential assistant in many areas. One of the leading manufacturers of these machines is Kramer, founded just 100 years ago in a small town near Lake Constance in southern Germany. Kramer produces extremely versatile, highly efficient, all-terrain wheeled loaders. These include the historic 411 model which as a wheeled loader old-timer has now become a real collector's item. As a siku model, the historic Kramer wheeled loader comes with red metal bodywork and true-to-original rims. The loading arm and shovel are movable, and the four tyres with deep tread profile mean that the vehicle is ready for any job.
