Shadow Stone Monster

[schleich ELDRADOR CREATURES Shadow Stone Monster:](#)

The sight of the Shadow Stone Monster chills you to the bone. With huge paws and arms spread wide, this boulder-crushing giant offers no escape for those who come near.

You'd probably rather not meet the Shadow Stone Monster in person! As a Stone Monster it was already pretty scary. But then it fell in battle with a stronger opponent. Now it has mutated into the Shadow Stone Monster and is more frightening than ever! On huge feet, it stomps through the terrain and waves its claws in the air. No grass or flowers will grow on earth that it thumps with its fist. The Shadow Stone Monster throws sharp, transparent crystals at its enemies. If that doesn't make you run for your life, it will scare you with a bloodcurdling scream from its huge gaping mouth. Let's get out of here!
