The instant steam generators are designed to allow you to iron quickly and easily because the steam is ready immediately and you can start ironing immediately, without having to wait. In fact, instant steam ironing systems consist of a large tank that sends water directly to the iron via a special pump and steam is produced simply by contact of the water with the hot plate of the iron. Steam Power Easy uses instant steam technology and guarantees you fast and easy ironing of any type of fabric and garment thanks to the ceramic soleplate.
