Zebra Z-Select 2000D White Self-adhesive printer label:

Zebra's direct thermal labels are available in paper or synthetic formats. Paper offers an inexpensive way to print in a variety of general-purpose applications, while synthetic offers more durable, long-lasting results with resistance to abrasion, moisture, and chemicals.

Direct thermal technology does not require a ribbon. Instead, a chemically coated heat-sensitive material produces images as heat is applied to the surface. Ideal for indoor applications where temperatures will not exceed high levels.

Premium cold temperature performance and adhesion to a variety of surfaces. All-temperature, permanent adhesive. Premium, smooth, bright white. Thermally-sensitive top-coating increases the battery life of Zebra mobile printers, ensuring maximum printhead life.
